## Symptoms

## Of Defective Vision

Many persons have the idea that defective vision manifests itself only in a failure or inability to see clearly, but itching, burning, smarting of the lids, dull pains in the eyes or head, even the back of the head, all come from irregularities in the optical construction of the eyes and may be entirely relieved by correctly fitted glasses.

DR. J. T. JOHNSON Guarantees to correct every case that he undertakes. If your eyes are giving annoyance consult him at once.

## DR. CREASY'S ADDRESS.

To a Union Meeting of W. C. T. U. Last Night.

Rev. W. S. Creasy, D. D., at Centenary church last night, said it was not to be a sermon, but he would read from Psalm 94:20 as a basis of his address: "Shall the throne of iniquity have fellowship with thee, which frameth mischief by a law?"

He said, in part, if there is a throne of iniquity it is the liquor traffic. There comes times when law is in league with the devil, but such has no fellowship with God. The business is screened by law, and boasts of the fact. But the business is not so respectable as formerly. It is also true that the amount of liquors consumed is not so much per capita as formerly.

The greatest amount of the stronger liquor consumed was about the year 1863, since that a decline, but an increase in the amount of wines until about the year 1878. Since that a decline, but an increase in the amount of beer until last year, when this seems to have reached its height. Never was a time when it was brighter for temperance.

He referred to the sweeping victory for temperance in Canada. Prohibition law is all right; the bible is full of it. Besides, we kill mad dogs and snakes, restrain men from doing other things which injure men; why not destroy the saloon? We should, and no man can justly claim that his rights are interfered with. Temperance people should not stop short of total prohibition. But from extensive travel in South Carolina the speaker was convinced that the dispensary is many times better than the open saloon and is the next best thing to prohibition.

He will move the saloon every time he can. If it is only across the street he will do it, and keep it moving. As a medicine, it is good for cold or heat, they say, and everything else known to man. It helps one in twenty as a medicine, but injures or kills the other nineteen.

The W. C. T. U. is a noble band of workers. The Purity Department is an important one; also the flower mission. But one of the greatest benefits we derive from their work is the influence on legislation. The white-ribbons are not afraid of temperance legislation, not afraid to agitate. They have done more to get temperance legislation than all others combined.

The speaker paid a glowing tribute to noble Miss Frances Willard and her great work. It was through her influence that one Sunday School lesson each quarter is a temperance lesson, she having furnished the Scriptural passages for them for seven years.

But the greatest work the W. C. T. U. does is in the home. They teach that wine and other intoxicants should not be used socially or for cooking purposes. Why, some people think they can't make a pie without putting brandy in it. Many a young man has taken his first step to ruin by getting the taste of alcohol at his mother's hand.

## ABSOLUTE QUIET AT MANILA

Aguineldo Inclined to Accept Pacific Overtures.

## REBELS WANT TO SURRENDER.

Americans no Longer Pay Attention to the Enemy Unless in Large Force—The Line Quiet.

By Cable to THE TELEGRAM.

Manila, Feb. 27.—Except an occasional volley or some individual firing by single rebels, along the river and in the vicinity of San Pedro and Macati, there was quiet along the entire line last night.

The sharpshooters at Calococan continue to annoy the soldiers in the day time, but the Americans no longer pay much attention to them, reserving their fire until the rebels appear in the open in sufficient force to justify a volley or an occasional shell.

Absolute quiet prevails at Manila. Two commissioners who returned from Malolos under a flag of truce today report eight thousand rebels there anxious to surrender. They also express the belief that Aguineldo is inclined to accept pacific overtures.

Gen. Otis did not receive the commissioners.

## TOUR OF THE SOUTH.

New England Newspaper Men Will Visit Dixie Land.

We have received newspapers from the general manager of the New England Newspaper League, containing the first announcement of a contemplated tour of the South by representatives of the eleven papers forming the league. Below we give some extracts from the announcement, and refer to our citizens for their consideration:

On Saturday, March 4, there will leave Boston, bound south, a corps of joint staff representatives of the New England Newspaper League, which has been organized for the purpose of sending an able and competent staff of writers, sketch artists and business representatives on a tour of inspection through the south.

The object—The purpose of this tour of Dixie by a corps of joint staff representatives of eleven well-known New England dailies is to show to the people of New England the advancement, unbounded resources and marvellous progress of the south during the past few years, and by a careful compilation of facts and figures, show its exact condition as it is today. It is in the line of progress. It means that New England proposes to shake hands with the south and ask in the friendliest sort of manner, "How d'ye do?"

Members of the party will send back for simultaneous publication in all the papers of this league daily letters outlining the movements of the party and general observations, giving a detailed account of their receptions at various points and other information which will prove of general interest to the hundreds of thousands who will watch the tour from day to day.

Immediately after the return of this party, a special southern edition, consisting of probably twenty-four pages, will be issued by all the papers of the league. This edition will be by far the most elaborate on the south ever attempted by any newspaper.

This tour of the south will be under the personal direction and management of Mr. C. F. King, a journalist of reputation and recognized ability. He is a native of North Carolina, and numbers among his personal friends prominent people in all parts of the south, and he is an enthusiastic believer in the present and future greatness of Dixie.

## In Great Demand.

The demand for the cravats made by the Runa Waterhouse Co. has been so great this season that the concern has found it impossible to keep up the varieties. Mr. Charles Brown, the manager, has been buying silks in this country, but he finds that he cannot secure real snappy novelties in sufficient quantities to keep up the reputation of the house. For the purpose of filling this void Mr. Brown has sailed for Europe. He will go through London, Paris, Vienna, Berlin, Budapest, Macclesfield, Creffield, Zurich, and other silk producing centres, and as fast as he picks out new silk they will be shipped and put into the spring line. Mr. Brown will also buy large quantities of next fall's business, and expects to spend five or six weeks looking over the new colors, combinations and suggestions that are made by the leading weavers of fine cravats.

This famous brand is handled by Rankin, Chisholm, Stroud & Rees.

## Saturday Night Thieving.

Some one entered the pantry of A. A. Hinkle, on Julian street, Saturday night and helped themselves to about a half-bushel of flour, two pounds of coffee and two cans of corn. The thief or thieves gained entrance through a window which was not fastened down. Officer Spook searched the house of a party who was under suspicion, but did not find the stolen goods.

## A HORRIBLE CRIME.

Case of Infanticide Discovered Saturday Afternoon.

One of the most horrible murders ever to go on record in Greensboro is a case of infanticide which was discovered Saturday afternoon when Morris Morrow, a colored man, found in a branch which crosses West Market street near the A. & Y. railroad the body of a female white infant. The throat was cut from ear to ear and cotton batting placed over the wound to prevent the show of blood. The body was wrapped in a woman's night gown; then in a coat apron, and then dropped into a heavy coffee sack.

Morrow reported the matter to Officer Pearce who with Coroner Turner went to the scene and brought the body to the Mayor's office where an inquest was held. Dr. Turner took out the lungs to ascertain whether or not the infant had lived after birth. The lungs floated, which is a certain indication that it was born alive. As nothing could be learned except from Morrow, the jury adjourned until 5 o'clock this afternoon. Dr. Turner says the infant had been in the branch not more than thirty-eight hours. The police have been working energetically since the crime was discovered but as yet have no clue. The body was probably taken there from some other part of the city or possibly from some other town. It was so securely wrapped that no blood could escape to leave a track. Chief Rees says he will spare no time nor money to bring the guilty mother and her agents to the bar of justice.

## A PETITION

Which Carries Something More Substantial Than Words.

The following petition will be presented to the county commissioners at their meeting Monday next, and we hope this progressive spirit will meet the recognition it deserves:

To the Honorable Board of County Commissioners of Guilford county: We the undersigned petition your board to begin macadamizing roads in the county of Guilford; and to encourage the same and to help get the work started, we hereby subscribe the following amounts set opposite our names, and agree to pay the same to your board in cash, or hauling at the usual price; the amounts to be paid in installments of 25 per cent as the work progresses on demand. The amounts so subscribed are on the following conditions:

1. That you purchase a stone-crushing outfit and other necessary machinery, and macadamize the new road from the corporation line at Dr. McIver's house to the intersecting of the said road with the old road at Pomona, a distance of two miles and about 200 yards; a space of eight or nine feet in the center, or on one side, to be macadamized, and a dirt road to be left on the other side, as usual in macadamizing.

2. That the property of the parties subscribing hereto is not to be advanced in valuation for taxes by reason of the increase in value on account of being located on or near this road for a term of five years.

This is one of the most important public roads in the county; it is traveled by parties going to Greensboro from Guilford College, Summerfield, Oak Ridge, Friendship, Kernersville, Deep River, Lego, Jamestown, High Point, Red Hill and Freeman's Mill sections, embracing nearly the whole western half of the county. This the 16th day of January, 1899.

## THE RIVER AND HARBOR BILL

Is Again in the House of Representatives.

## MAY COME UP THIS AFTERNOON.

Ewart Will Not be Confirmed, and Senator Pritchard May be Appointed in His Stead.

Special to THE TELEGRAM.

Washington, Feb. 27.—The river and harbor bill is again in the house of representatives, where the efforts of the southern congressmen will now be directed to the retaining of the provisions in the bill in which the section is vitally interested. The senate has added amendments of local importance to North Carolina, South Carolina, Virginia, Georgia, Florida, and other southern states. Although the members of the state delegation in congress have worked hard to secure the few local items accorded to North Carolina, and will continue their efforts until the bill is finally disposed of, there is great danger that some of the items added by the senate may be rejected by the conference committee.

The members from the house, however, are hopeful that at least some of the items may go through, and that some of them will be in the final draft of the bill as it goes to the president. The river and harbor bill has not yet come up in the house, but will doubtless be taken up some time during the afternoon, when efforts will be made to concour in the Nicaraguan canal amendment. This is likely, however, to be unsuccessful, and the chances are that the bill will be referred to the committee on rivers and harbors, and later sent to conference. If this course is followed, it cannot be stated when the bill is likely to reach the final stage, as it all depends upon the amount of time consumed over the Nicaraguan amendment. Members of the house say that as soon as some agreement is reached on the construction of the canal, that a speedy agreement will be reached on other items added by the senate.

The vote in the senate on the passage of the river and harbor bill will carry much weight, as it showed an overwhelming majority, there being but three votes cast in opposition on an aye and nay vote. Several of the senators who oppose the canal either voted for the bill in the hope that the proposition would be eliminated by the conference committee, or else they refrained from voting.

Among the prominent ladies in Washington attending the session of the Daughters of the American Revolution, is Mrs. Stonewall Jackson. She has been quite constant in her attendance upon the convention, and has evinced much interest. She is representing the Mecklenburg, Virginia, chapter, and the other day was escorted to the platform by one of the southern delegates, and introduced, being accorded hearty applause by the ladies. Tonight a reception will be given in honor of Mrs. Jackson, and will be attended by the North Carolina delegates, and also by many members of the North Carolina circle in Washington.

As it is practically certain that Judge Ewart will not be confirmed, speculation is again turning as to the probable judge. Senator Pritchard's name is again mentioned, and although it is declared that he would not take the appointment, there are many who say that he would, if it is tendered him. If the nomination of Judge Ewart is not acted upon by the Senate, and it is hung up, it is believed by many that the President would again appoint him during the recess of Congress, and send his name to the Senate again next session.

On the evening of March 3rd, the ladies of the North Carolina Society of this city will hold one of their delightful receptions. A large number of invitations has been issued, and it is expected several of the delegation in Congress will attend, provided their congressional duties do not prevent them. The reception will be held at the Confederate Veterans' Hall.

Ellis C. Peace has received her commission as postmaster at Oxford, N. C. This is a presidential office. Postmasters have also been commissioned in North Carolina as follows: Nancy W. Thorne, Mill Spring; Aaron Furr, Bloomington; Virgil V. Shipman, Grange; Jacob Eller, Helton; Bettie A. Russell, Springle.

Mr. G. E. French and Mrs. S. B. Key, of Statesville, N. C., are at the St. James Hotel.

"Popular" is the name of a line of ladies' Oxford made by the Hamilton-Brown Shoe Co., and they are rightly named, for it is one of the most popular lines of low shoes in the country. They are sold in Greensboro by Thacker & Brookmann, who now carry them in stock in a great variety of styles and sizes.

## LET THE WORK BEGIN.

Road Improvement Not a Sentiment, But a Condition.

Editor Telegram.—The future growth of Greensboro is more hopeful than any city in the state. Its location easily makes it thus. Commerce and manufacture never err in locating facilities for transportation.

But the interests of the city and county are reciprocal. Have you ever seen a prosperous and live city hedged in by a country of poor homes? The mutual growth of the two naturally demands facilities to promote their development.

Nothing has conspired to serve this purpose more than permanent road improvement. This is no sentiment, it is a condition. It has been tried. In a conversation with Capt. McMackin, the engineer for Raleigh and Wake county, said he: "A farmer living one mile from one of my macadam roads, was using three teams with three horses each in carrying wood from his farm to my stone road. There the farmer had one team of two horses drawing to town, at one load, the loads of the other three teams." Think of it! The tractive force of nine horses in the mud overcome by two horses on a metal road.

The farmer referred to above said that he would give one hundred dollars for permanent road extension wherever it has begun. Next Monday the county commissioners will be asked to take steps for permanent road improvement in Guilford county. The permanent improvement contemplates macadamizing a road from Greensboro to Pomona. This road is an important public road, alike to the city and the county.

No enterprise connected with the duties of the commissioners should receive more special consideration. Every consideration demands action. The good work should begin. It is a paying investment. It has been proven so in every locality where it has been tried. Public sentiment has endorsed it. Taxpayers have endorsed it. The people need it. It is a thing of constant and permanent use. It gives satisfaction because it demonstrates its utility. Citizen.

## INVITE THEM HERE.

In another column will be found the announcement of the southern tour of the New England Newspaper League, composed of eleven of the strongest and most influential papers in the New England states. The party will take in all places of interest in the southern states, and on their return home, each of the eleven papers will issue a special southern edition, and right here is a great opportunity for Greensboro to put her best foot forward and extend to these pencil shavers the right hand of fellowship. Let the proper authorities take steps at once to have them spend a day or two in the City of Flowers.

Mr. C. F. King, the organizer and general manager of the combination, is a native of North Carolina and his address is 307 Washington street, Boston.

As the party does not start from Boston until Saturday, there is ample time to formulate plans and make all necessary arrangements to have them visit our city. Their first stop will be Richmond, at which place a delegation could meet them. Let some action be taken at once.

The American Tobacco Company has gobbled up its young rival, the Union Tobacco Company, also the Liggett & Myers Company, thus acquiring control of practically the entire cigarette and plug tobacco business of the country, and increasing its capital to one hundred million dollars. Another combine in tobacco circles is forming—The Continental—which is rapidly acquiring all the factories of importance now outside the clutches of the American. It is to be hoped that this new concern will be able to successfully compete with its somewhat more formidable foe, but it may be a question of a short time ere it, too, will pass into the avaricious maw of the leviathan that is now preying upon the farmers of the country. Then where will the competition—"the life of trade"—come from? With only one customer on the market, tobacco growers will be compelled to accept less than the low prices now received. A weapon with which to fight this monster devil-fish—a law so strong that even the state of New Jersey, the hot-bed of trusts, cannot give birth to another—should be furnished by congress at once, and thus put an end to such gigantic aggregations of wealth in any one concern "for the purpose of controlling the output and price of any commodity."

The Charlotte Observer says that Senators Butler, of North Carolina, and Allen, of Nebraska—both populists—occupy at least one-fifth of the time of the open sessions of the senate. North Carolina's numbskull is now daily blowing to defeat the confirmation of Judge Ewart, and Butler's opposition will probably prove to be about all the recommendation Ewart needs. When it is known that two empty-headed pops speak one-fifth of the time in the senate, one wonders why there should be so many "dead-locks" over a seat in that body.

Before the discovery of One Minute Cough Cure, ministers were greatly disturbed by coughing congregations. No excuse for it now. Howard Gardner's

The Postal Telegraph Company is suing at Cleveland, O., for the right to string wires on the Big Four railroad from Cleveland to Union City, Ind.

## Why He Liked Him.

The barber was perhaps a trifle more talkative than usual, and the customer was scarcely in a good humor. The poorly gentleman had come straight from the dentist's. In his blustered ignorance of this little fact the knight of the razor opened fire. He discussed the weather, foreign politics, the rival barber opposite, and was just explaining his views on the education question when the customer suddenly growled: "Where's that assistant of yours, the one with the red hair?" "He's left me, sir. We parted last week—on friendly terms, you know, and all that, but—" "Pity!" growled the portly gentleman. "I liked that young fellow. There was something about his conversation I thoroughly enjoyed. He was one of the most sensible talkers I ever met, and—" "You'll excuse me, sir, but there must be some mistake," gasped the astonished barber. "If you remember, poor Jim was deaf and dumb." "Just so. Just so," was the curt rejoinder. "That's why I liked him." And the barber went on shaving—Pearson's Weekly.

## Rewarded For His Honesty.

An English farm laborer recently went to a small store kept by an old woman and asked for "a pound of bacon." She produced the bacon and cut a piece off, but could not find the pound weight. "Oh, never mind 't' pahnd weight," said he, "as this fat just weighs a pahnd. So put the bacon 't' scales." The woman confidently placed the bacon into one side of the scales while the man put his fist into the other side, and, of course, took good care to have good weight. While the woman was wrapping the bacon up the pound weight was found, and, on seeing it, the man said: "Nah, you see if my fist don't just weigh a pahnd." The pound weight was accordingly put into one scale and the man's fist into the other, this time only just to balance. The old woman, on seeing this, said: "Wha, I niver seed aught so near afore! Here's a red herring for thee honesty, ma lad!"—New York Tribune.

## Had to Get Up.

Some years ago Dr. Oscar Blumenthal, the director of the Lessing theater in Berlin, had an unpleasant experience of the vigilance with which the authorities carry out their duties. In his comedy, the "Orient Reine," one of the characters was afflicted with a mother-in-law of the most objectionable kind. This lady died and, according to the belief of her relatives, went to heaven. The prospect of a fresh acquaintance with his dreaded mother-in-law so terrified her son-in-law that he announced that, if this should be his fate, "when the resurrection comes I shan't get up."

This was sufficient for the authorities. Twenty-four hours after the performance of the piece an ominous blue envelope arrived at the Lessing theater containing a peremptory order from the president of police that the lines in question should be immediately suppressed. It was being calculated to wound the religious feelings of the laity. "—Paris Herald.

## Some Fifteens.

In the Courant of March 16, 1784, we printed the following queer story, which our readers will pardon us for repeating. Some of them may have forgotten it: HENSON, Feb. 15, 1784.—This day departed this life, Lydia Peters, the wife of Colonel John Peters and second daughter of Joseph Phelps, Esq. She was married at the age of 15 and lived with her consort three times 15 years and had 15 living children, 15 now alive and the youngest 15 years old. She hath had three times as many grandchildren. She was sick 15 months and died on the 15th day of the month, aged four times 15 years.—Hartford Courant.

## Pathetic and Practical.

Here is a "personal" that appeared not long ago in a London newspaper: "Willie, return to your distracted wife and frantic children! Do you want to hear of your old mother's suicide? You will if you do not let us know where you are. Anyway, send back your father's colored merschaum." And yet we say the Briton has no very lively sense of humor.

## One Qualification.

Mrs. Mann—You can't wash and iron nor make the fire (satirically)! Perhaps you might be able to sit in the parlor and read the morning paper after my husband has got through with it. The Workaday—I think I could do that, mem, if the paper had stories in it.—Boston Transcript.

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of DeWitt's Little Early Risers, the famous little pills. Howard Gardner.

Edwin F. Searles will add another art gallery to the University of California. Not one child dies where ten formerly died from croup. People have learned the value of One Minute Cough Cure and use it for severe lung and throat troubles. It immediately stops coughing. It never fails. Howard Gardner.

Ada Rehan's engagement by Arthur Collins to appear in the next Drury Lane melodrama has excited great interest in this country. English actors and actresses regarded it as another proof of the steady progress of a movement by American artists to capture the English stage completely.

## A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D.: "I was taken with a bad cold which settled on my lungs; cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and colds. I gave it a trial and took in all eight bottles. It has cured me, and thank God I am saved and now a healthy woman. Trial bottles free at C. E. Holton's drug store. Regular size 50c and \$1. Guaranteed or price refunded."

## Dangers of the Grip.

The greatest danger from La Grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by C. E. Holton.

For murdering Mrs. Meyer and her daughter to obtain \$2,000, Samuel Rivers, George Hale and Edwin Johnson are to be hanged at Troy, Ala., on March 21st.

## For La Grippe

Thomas Whitfield & Co., 250 Washington ave., corner Jackson st., one of Chicago's oldest and most prominent druggists, recommend Chamberlain's Cough Remedy for la grippe, as it not only gives a prompt and complete relief, but also counteracts any tendency of la grippe to result in pneumonia. For sale by C. E. Holton.

The Kentucky whiskey trust will absorb several plants at a cost of about \$12,000,000.

## British Guards Band.

Nowhere in America will Lieut. Dan Godfrey and his British Guards Band who sailed by the Lusitania from Liverpool on Feb. 25th, receive a more enthusiastic reception than in the cities of the south. Between the Southern States and England there has always been a feeling of sympathy both of kindred and feeling, and the tour of the English red coats in Virginia, the two Carolinas and Georgia promises to be a series of ovations in which there will be a genuine outburst of international good will. The spectacle of the scarlet coated musicians, all of whom have served their Queen and country playing Dixie, and national American airs, will be inspiring. In more classical numbers the high character of the band and its splendid instrumentation, promise a rare treat from a musical viewpoint.

This great band will appear in Greensboro, at the G. F. C. Chapel, on the evening of March the 9th. Tickets now on sale at Faris's drug store, 100 and 150.

## Doctors Can't Cure It!

Contagious blood poison is absolutely beyond the skill of the doctors. They may dose a patient for years on their mercurial and potash remedies, but he will never be rid of the disease; on the other hand, his condition will grow steadily worse. S. S. S. is the only cure for this terrible affliction, because it is the only remedy which goes direct to the cause of the disease and forces it from the system.

I was afflicted with Blood Poison, and the best doctors did me no good, though I took their treatment faithfully. In fact, I seemed to get worse all the while. I took almost every so-called blood remedy, but my condition will grow steadily worse. S. S. S. is the only cure for this terrible affliction, because it is the only remedy which goes direct to the cause of the disease and forces it from the system.

It is like self-destruction to continue to take potash and mercury, which totally destroy the digestion, they dry up the marrow in the bones, producing a stiffness and swelling of the joints, causing the hair to fall out, and completely wrecking the system.

**S.S.S. For The Blood**  
is guaranteed Purely Vegetable, and is the only blood remedy free from these dangerous minerals.

### A SHOOTING SCRAPE.

One Negro Shoots Another in  
Warnersville.

A shooting scrape occurred just be-  
yond Hucomuga Mills, south of the  
city, between 5 and 6 o'clock Sunday  
morning. Louis Albright, colored,  
shot John Hadley, also colored, the  
ball entering in the small of the back,  
near the spinal column and taking a  
downward course. It was a 38 caliber  
and inflicted a painful, but not serious  
wound. Both the men, and four other  
negroes, who with them at the time the  
shooting occurred, claim that it was  
an accident, but it is thought that they  
were gambling and became involved  
in a quarrel.

Hadley was taken to his home in  
Warnersville and given medical at-  
tention. A colored man came up  
town yesterday to inform the police  
and have Albright arrested, but as  
the shooting occurred outside the city  
limits the police have no authority  
unless a warrant was procured and  
the man refused to do this. Sheriff  
Gilmer was out of town and nothing  
could be done in regard to the matter.  
Albright was seen on the streets several  
times yesterday.

Vaccinate.

TO THE CITIZENS OF GREENSBORO:

In view of the fact that within the  
last two or three days several cases of  
smallpox have developed in a neigh-  
boring town within twenty-five miles  
of our city, I, therefore, in pursuance  
of a resolution passed by the Board  
of Aldermen at a called meeting held  
on Saturday, February 25th, 1899, do  
earnestly urge all of our citizens to be  
vaccinated at once. By so doing, it  
will become utterly impossible for  
Greensboro to suffer from the disas-  
trous results a smallpox scare would  
cause, and it is to prevent such a scare  
that this appeal is made.

Respectfully,  
Z. V. Taylor,  
Mayor.

love it. Adults prefer it to bitter  
nauseating tonics. Price, 50c.

MRS. HOUSEKEEPER:  
Please permit us to ask you a very  
pointed question: Have you a Uni-  
versal Food Chopper? By this we do  
not mean a meat grinder, but a Chop-  
per, which takes the place of chopping  
bowl and beater.  
It chops meat, of course, but it does  
more. You can chop ham, coconut,  
or bread instead of grating it. You  
can—but we can't tell it all here. Our  
booklet gives full information free.  
You will have use for it every day in  
the year. It is very simple and very  
cheap. Please call and let us show  
it to you. Yours truly,  
Odell Hardware Co.
